

## Encoder Explorer SW - V5.3 has been released!

As part of a continuing process to improve Netzer 'Encoder Explorer' user experience. Here's a summary of what has changed. We recommend you to update the 'Encoder Explorer' SW on your work stations. The upgraded version supports all company products and is backward compatible.

### Overview updates

1. Adding support in Encoder Explorer software for higher resolution encoders
2. Supporting of new encoders (new part numbers)
3. Displaying up to 6 digital digits (according to resolution)

Resolution in bits	Resolution in counts	1 count in degrees	No.of displayed decimal digits
17	131072	0.00274658203125	3
18	262144	0.0013755798339844	3
19	524288	0.0006866455078125	4
20	1048576	0.00034332275390625	4
21	2097152	0.000171661376953125	4
22	4194304	0.0000858306884765625	5
23	8388608	0.00004291534423828125	6

## Installing the software

System requirements:

OS Windows 7 or later (x32 or x64)

NET Framework version 4.6.1 or later

Run the Encoder Explorer file found on Netzer website:

[Encoder Explorer Software Tool](#)

Unzip downloaded file and run nested .msi
