

Product End-of-Life (EOL) Announcement

To whom it may concern

Due to the recent announcement by component suppliers, Intel and TI of the EOL for two key components, the production of certain revisions of Netzer Electric Encoder™ will be discontinued.

The new version of the electronics is based on the Q-Core technology.

Affected items are below in 2 separate lists:

1. The last buy date for the product families listed below will be February 28th, 2022

- DS-90-64-3 / 3T-XXX
- DS-58-16 / 32-XXX
- DS-25-16- C/D-XXX
- DL-25-16-XXX

2. The last buy date for the product families listed below will be February 28th, 2023

- DS-70-64-XXX
- DS-130-64-XXX
- DS-37-16- C/D/E/S
- SC2SSI (ADC External Module)
- DF-150 /100/ 60
- VLP-168
- 2P-70-SIM KIT

For [group No. 1](#), Netzer Sensors is offering immediate replacement products based on the available proven Q Core technology.

For [group No. 2](#) above, Q Core replacement will be available by January 2022.

The only change is within the electronic circuit based on new and modern technology that provides higher processing speed, lower latency, faster update rate, and 50% of power consumption.

Please refer to the data sheets on our [website](#) for (additional) ordering options and feel free to contact your local rep. or our technical support team for any questions that you may have.

Last orders for the above products are requested ASAP, no later than September 2021 for list No. 1 and September 2022 for list No. 2.

We understand the burden caused by this change, and we appreciate your loyalty and cooperation.

You are kindly requested to acknowledge receipt of this EOL letter by return email to Rebecca.Shmuel@netzerprecision.com

Your loyalty and cooperation are highly appreciated.

Please look forward to and share with any other relevant people within your company to ensure this important notice will be received.

Sincerely,

Netzer Precision Position Sensors
